Selected Performance Benchmark for PRSEC

Page 35 – The benchmark of the fund has been amended as follows:

The benchmark of the fund is the following composite benchmark index comprising:

Percentage	Index
90%	S&P Pan Asia Ex-Japan, Australia, New Zealand & India LargeCap 8% Capped Index
10%	3-Month KLIBOR

This composite benchmark index is an appropriate performance benchmark for PRSEC as the fund is an equity fund which generally has an equity weight of 90% of its NAV over the long term.

Prior to 2 January 2025, the fund's benchmark was a composite index of 90% S&P Pan Asia Ex-Japan, Australia, New Zealand & India LargeCap Index and 10% 3-Month KLIBOR.

Effective from 2 January 2025, the S&P Pan Asia Ex-Japan, Australia, New Zealand & India LargeCap Index in the fund's benchmark was replaced with the S&P Pan Asia Ex-Japan, Australia, New Zealand & India LargeCap 8% Capped Index as the latter is more reflective of the portfolio composition and strategies of the fund.

PUBLIC TACTICAL ALLOCATION FUND (PTAF)

Selected Performance Benchmark for PTAF

Page 105 – The benchmark of the fund has been amended as follows:

The benchmark of the fund is the following composite benchmark index comprising:

Percentage	Index
40%	S&P United States LargeCap Index
15%	Customised index by S&P Dow Jones Indices, LLC based on the top 30 constituents of the S&P BMI Asia Ex-Japan Index
15%	TOPIX Core 30 Index
30%	3-Month KLIBOR

This composite benchmark index is an appropriate performance benchmark for PTAF as it is reflective of the fund's asset allocation which will typically be 70% of NAV in shares or securities equivalent to shares over the medium to long term.

Prior to 2 January 2024, the fund's benchmark was a composite index of 70% S&P Pan Asia Ex-Japan, Australia, New Zealand & India LargeCap Index and 30% 3-Month KLIBOR.

Effective from 2 January 2024, the S&P Pan Asia Ex-Japan, Australia, New Zealand & India LargeCap Index in the fund's benchmark was replaced with 40% S&P United States LargeCap Index, 15% customised index by S&P Dow Jones Indices, LLC based on the top 30 constituents of the S&P BMI Asia Ex-Japan Index and 15% TOPIX Core 30 Index as these indices are more reflective of the portfolio composition and strategies of the fund.

UTC	Unit trust scheme consultant	
valuation point	Valuation point refers to such a time(s) on a Business Day as may be decided by the Manager wherein the NAV of the fund/class is calculated. Under normal circumstances, only one valuation is conducted on each Business Day. For funds with no foreign investments, the valuation of the funds/classes is conducted on each Business Day at the close of Bursa Securities. For funds with foreign investments, the valuation of funds/classes will be conducted after the close of business of Bursa Securities for the relevant day. As certain foreign markets in which the funds may invest in have yet to close due to the different time zones of these countries, the valuation point may be extended to 5:00 p.m. (or any other such time as may be permitted by the relevant authorities from time to time) on the following day in which the Manager is open for business.	
warrants	Securities that entitles the holder to exercise his rights to buy the underlying stock(s) of the issuing company at a fixed price called exercise price until the expiry date. For the purpose of these funds, the underlying stock(s) must be in new shares.

Additional Disclosure

The FBM 100 is a market capitalisation weighted index of 100 stocks designed to measure the performance of Bursa Securities. The index is constructed to reflect the performance of listed companies that are representative of the major sectors of the Malaysian economy. The index is rebalanced periodically based on criteria as determined by the FTSE Bursa Malaysia Advisory Committee.

A minimum of 60% of the fund's NAV will be maintained in component stocks of the FBM 100. PIX is not a passive index fund and will also invest in non-FBM 100 stocks with good growth prospects and attractive valuations to enhance its investment performance.

Additional Disclosure (cont'd)

*Tracking error of the fund's movements vs the FBM 100 may arise as the fund may invest in non-index stocks. Differences in weights of index stocks held by the fund vs the respective stock's weightings in the FBM 100 will also contribute to tracking errors. **As a result, there is no guarantee that the fund will exactly replicate or track the underlying benchmark's return.** However the fund will be rebalanced on an ongoing basis to manage its tracking error versus the benchmark.*

The risk of investing in equity index funds relate to risks arising from its equity holdings which will fluctuate in line with the stockmarket's movements. Risk of price movements on a stock specific basis can also affect the fund's overall returns.

There is no guarantee or assurance of exact or identical replication at any time of the performance of the index.

The index composition may change and component securities of the underlying index may be delisted.

The investment of the fund may be concentrated in securities of a single issuer or several issuers.

Investment Policy and Strategy

Typical Asset Classes	- Transferable securities: ➤ Shares that the fund may invest in include blue chip stocks, index stocks and growth stocks. - Units or shares of other collective investment schemes. - Money market instruments which include unrestricted investment accounts. - Deposits with licensed domestic and foreign financial institutions.	
Asset Allocation	Shares or securities equivalent to shares	75% to 98% of the fund's NAV
	The balance of the fund's NAV may be invested in bonds or other forms of securitised debt, money market instruments and deposits. <i>If the outlook for equity market is unfavourable, the shares or securities equivalent to shares exposure may be reduced to below the range indicated above while the exposure to bonds or other forms of securitised debt, money market instruments and deposits may be increased as a temporary defensive strategy.</i>	
	Foreign assets	50% to 98% of the fund's NAV
Location of Assets	- Malaysia - South Korea - China - Japan - Hong Kong - Taiwan - Singapore - Philippines - Thailand - Indonesia - Australia - Any other selected foreign markets.	
Investment Approach	Shares or securities equivalent to shares	The fund will invest in a maximum of 6 sectors but will maintain its investment in a minimum of 3 sectors. To facilitate the transition of one sector to another, the fund may temporarily invest in more than 6 sectors when it is undertaking the portfolio rebalancing exercise. The selection of market sectors is based primarily on the growth prospects of the sectors. After sectors are identified, the fund manager will review the shares or securities equivalent to shares available in the market for selected sectors. Shares or securities equivalent to shares will be selected based on bottom-up approach which relies on fundamental research where the financial health, industry prospects, management quality and past track records of companies are assessed.

Selected Performance Benchmark for PFECTF

The benchmark of the fund is a customised index by S&P Dow Jones Indices, LLC based on the constituents within the selected sectors of the S&P BMI Asia Ex-Japan Index* comprising Malaysia, Singapore, Thailand, Indonesia, the Philippines, Hong Kong, China 'H' Shares, Taiwan and South Korea. The selected sectors of the S&P BMI Asia Ex-Japan Index are the Consumer Discretionary and Consumer Staples sectors as defined by the then-current Global Industry Classification Standard (GICS). Therefore, the returns for the customised index for any given period of time would comprise of the returns from the Consumer Discretionary and Consumer Staples sectors of S&P BMI Asia Ex-Japan Index. This customised benchmark index is an appropriate performance benchmark for PFECTF as the fund invests in a portfolio of stocks in the consumer sector in the domestic and foreign markets.

* As indices which focus on Asian markets have a relatively high index weight for Japanese stocks, an index which excludes the Japan market is used as the fund's equity benchmark as it is more representative of the fund's investment strategy.

Information on the benchmark can be obtained from S&P Dow Jones Indices, LLC.

The asset allocation between bonds or other forms of securitised debt and money market instruments will depend on economic growth, interest rate trends and market liquidity conditions.

Selected Performance Benchmark for PCTF

The benchmark of the fund is the following composite benchmark index comprising:

Percentage	Index
40%	Hang Seng China Enterprises Index (HSCEI)
30%	Hang Seng Index (HSI)
30%	S&P Taiwan LargeCap Index

The component stocks of these 3 indexes comprise major stocks from their respective markets namely China 'H' Shares, Hong Kong and Taiwan. This composite benchmark index represents an appropriate performance benchmark for PCTF as it is representative of the markets that the fund is permitted to invest in over the medium to long term.

Prior to 30 April 2021, the fund's benchmark was a composite index of 40% Hang Seng China Enterprises Index, 30% Hang Seng Index and 30% MSCI Taiwan LargeCap Index.

Effective from 30 April 2021, the MSCI Taiwan LargeCap Index in the fund's benchmark was replaced with the S&P Taiwan LargeCap Index. The benchmark used for selected regional funds have been changed from the MSCI Far-East Ex-Japan Index to S&P Pan Asia Ex-Japan, Australia, New Zealand & India LargeCap Index. Consequently, the country index for the fund is now based on the S&P index instead of the MSCI index.

Information on the benchmark can be obtained from Bloomberg L.P.

As the fund is actively managed and its holdings may differ from its benchmark, the risk profile of the fund is not the same as the risk profile of the benchmark.

Selected Performance Benchmark for PFA30F

The benchmark of the fund is the following composite benchmark index comprising:

Percentage	Index
80%	Customised index by S&P Dow Jones Indices, LLC based on the top 30 constituents of the S&P BMI Asia Ex-Japan Index
10%	Tokyo Stock Price Index (TOPIX)
10%	3-Month KLIBOR

The component stocks of the customised index by S&P Dow Jones Indices, LLC based on the top 30 constituents of the S&P BMI Asia Ex-Japan Index comprise major stocks from key markets in Asia Ex-Japan region, while the component stocks of TOPIX comprise major stocks from Japan. This composite benchmark index represents an appropriate performance benchmark for PFA30F as the fund is an equity fund which generally has an equity weight of 90% of its NAV over the medium to long term.

Prior to 30 April 2021, the fund's benchmark was a composite index of 80% customised index by MSCI based on the top 30 constituents of MSCI AC Far-East Ex-Japan Index, 10% Tokyo Stock Price Index and 10% 3-Month KLIBOR.

Effective from 30 April 2021, the customised index by MSCI based on the top 30 constituents of MSCI AC Far-East Ex-Japan Index in the fund's benchmark was replaced with the customised index by S&P Dow Jones Indices, LLC based on the top 30 constituents of the S&P BMI Asia Ex-Japan Index. The benchmark used for selected regional funds have been changed from the MSCI Far-East Ex-Japan Index to S&P Pan Asia Ex-Japan, Australia, New Zealand & India LargeCap Index. Consequently, the customised index for the fund is now based on the S&P index instead of the MSCI index.

Information on the benchmarks can be obtained from the following sources:

Selected Performance Benchmark for PSTGF

The benchmark of the fund is the following composite benchmark index comprising:

Percentage	Index
60%	FTSE Bursa Malaysia KLCI (FBM KLCI)
15%	Dow Jones Industrial Average
15%	Customised index by S&P Dow Jones Indices, LLC based on the top 30 constituents of the S&P BMI Asia Ex-Japan Index
10%	3-Month KLIBOR

The component stocks of the customised index by S&P Dow Jones Indices, LLC based on the top 30 constituents of the S&P BMI Asia Ex-Japan Index comprise major stocks from key markets in Asia Ex-Japan region. This composite benchmark index represents an appropriate performance benchmark for PSTGF as the fund is an equity fund which invests in domestic and foreign markets and generally has an equity weight of 90% of its NAV over the medium to long term.

Prior to 30 April 2021, the fund's benchmark was a composite index of 60% FTSE Bursa Malaysia KLCI, 15% Dow Jones Industrial Average, 15% customised index by MSCI based on the top 30 constituents of MSCI AC Far-East Ex-Japan Index and 10% 3-Month KLIBOR.

Effective from 30 April 2021, the customised index by MSCI based on the top 30 constituents of MSCI AC Far-East Ex-Japan Index in the fund's benchmark was replaced with the customised index by S&P Dow Jones Indices, LLC based on the top 30 constituents of the S&P BMI Asia Ex-Japan Index. The benchmark used for selected regional funds have been changed from the MSCI Far-East Ex-Japan Index to S&P Pan Asia Ex-Japan, Australia, New Zealand & India LargeCap Index. Consequently, the customised index for the fund is now based on the S&P index instead of the MSCI index.

Information on the benchmarks can be obtained from the following sources:

Selected Performance Benchmark for POEF

The benchmark of the fund is the following composite benchmark index comprising:

Percentage	Index
50%	Customised index by S&P Dow Jones Indices, LLC based on the top 30 constituents of the S&P BMI Asia Ex-Japan Index
40%	FTSE Bursa Malaysia KLCI (FBM KLCI)
10%	3-Month KLIBOR

The component stocks of the customised index by S&P Dow Jones Indices, LLC based on the top 30 constituents of the S&P BMI Asia Ex-Japan Index comprise major stocks from key markets in Asia Ex-Japan region. This composite benchmark index is an appropriate performance benchmark for POEF as it is reflective of the fund's equity investments in the domestic and foreign markets over the medium to long term.

Prior to 30 April 2021, the fund's benchmark was a composite index of 50% customised index by MSCI based on the top 30 constituents of MSCI AC Far-East Ex-Japan Index, 40% FTSE Bursa Malaysia KLCI and 10% 3-Month KLIBOR.

Effective from 30 April 2021, the customised index by MSCI based on the top 30 constituents of MSCI AC Far-East Ex-Japan Index in the fund's benchmark was replaced with the customised index by S&P Dow Jones Indices, LLC based on the top 30 constituents of the S&P BMI Asia Ex-Japan Index. The benchmark used for selected regional funds have been changed from the MSCI Far-East Ex-Japan Index to S&P Pan Asia Ex-Japan, Australia, New Zealand & India LargeCap Index. Consequently, the customised index for the fund is now based on the S&P index instead of the MSCI index.

INFORMATION ON THE FUNDS (CONT'D)

Investment Approach (cont'd)	Collective investment schemes	The suitability of the collective investment scheme will be evaluated to ensure that the investment strategies of the said collective investment scheme are aligned to the fund's investment strategies and objective.
	Bonds or other forms of securitised debt and money market instruments	The asset allocation between bonds or other forms of securitised debt and money market instruments will depend on economic growth, interest rate trends and market liquidity conditions.

Selected Performance Benchmark for PHGEF

The benchmark of the fund is the following composite benchmark index comprising:

Percentage	Index
40%	S&P Global 1200 Health Care Index
25%	Dow Jones Industrial Average
25%	Customised index by S&P Dow Jones Indices, LLC based on the top 30 constituents of the S&P BMI Asia Ex-Japan Index*
10%	1-Month KLIBOR

The component stocks of the customised index by S&P Dow Jones Indices, LLC based on the top 30 constituents of the S&P BMI Asia Ex-Japan Index comprise major stocks from key markets in Asia Ex-Japan region. This composite benchmark index represents an appropriate performance benchmark for PHGEF as it is representative of the markets that the fund is permitted to invest in over the long term.

* As indices which focus on Asian markets have a relatively high index weight for Japanese stocks, an index which excludes the Japan market is used as the fund's equity benchmark as it is more representative of the fund's investment strategy.

Information on the benchmarks can be obtained from the following sources:

Selected Performance Benchmark for PTAF

The benchmark of the fund is the following composite benchmark index comprising:

Percentage	Index
70%	S&P Pan Asia Ex-Japan, Australia, New Zealand & India LargeCap Index
30%	3-Month KLIBOR

This composite benchmark index is an appropriate performance benchmark for PTAF as it is reflective of the fund's asset allocation which will typically be 70% of NAV in shares or securities equivalent to shares over the medium to long term.

Prior to 30 April 2021, the fund's benchmark was a composite index of 70% MSCI AC Far-East Ex-Japan Index and 30% 3-Month KLIBOR.

Effective from 30 April 2021, the MSCI AC Far-East Ex-Japan Index in the fund's benchmark was replaced with the S&P Pan Asia Ex-Japan, Australia, New Zealand & India LargeCap Index as the S&P regional index, which comprises a lower number of benchmark components as compared to the MSCI regional index, is more reflective of the portfolio composition and strategy of the fund in terms of the number of stocks which the fund generally holds.

Selected Performance Benchmark for PBF

The benchmark of the fund is Public Balanced Equity Index (PBEIX), which was created to better reflect the scope and parameters of the fund especially with regards to the equity constraints of 60%. PBEIX is a composite index whose value is subject to the daily changes in the FTSE Bursa Malaysia KLCI (FBM KLCI) and the 3-Month KLIBOR on a 60:40 basis. The index is assumed to be rebalanced to 60% equity exposure at the end of each trading day.

Public Balanced Equity Index (PBEIX) is a proprietary composite benchmark index comprising of a hypothetical investment in the FBM KLCI and 3-Month KLIBOR in a 60:40 ratio. Therefore, the returns for PBEIX for any given period of time would be made up of 60% from the returns of the FBM KLCI and 40% from 3-Month KLIBOR interest earned for the same period of time. The FBM KLCI is a free-float adjusted market capitalisation weighted index which comprises the Bursa Malaysia Main Market's 30 largest companies by full market capitalisation. As it is also very widely followed and easily understood representation of the Bursa Securities, it is deemed that the most appropriate equity benchmark for this fund is the FBM KLCI. For the purpose of this index, the returns for 3-Month KLIBOR is calculated by accruing interest earned on a daily basis from the daily closing quoted 3-Month KLIBOR. This index represents an appropriate performance benchmark for gauging the performance of PBF in view of the fund's 60% equities portfolio composition.

Information on the benchmarks can be obtained from the following sources:

FBM KLCI	FTSE International Limited.
3-Month KLIBOR	Business sections of the daily newspapers.

As the fund is actively managed and its holdings may differ from its benchmark, the risk profile of the fund is not the same as the risk profile of the benchmark.

The performance of the fund and its benchmark is available on our website at www.publicmutual.com.my.

Selected Performance Benchmark for PFEBF

The benchmark of the fund is the following composite benchmark index comprising:

Percentage	Index
60%	S&P Pan Asia Ex-Japan, Australia, New Zealand & India LargeCap Index
40%	3-Month KLIBOR

This composite benchmark index represents an appropriate performance benchmark for PFEBF as the fund may only invest up to 60% of its NAV in a portfolio of stocks in domestic and regional markets, while the balance of the fund's NAV is invested in bonds or other forms of securitised debt, money market instruments and deposits.

Prior to 30 April 2021, the fund's benchmark was a composite index of 60% MSCI AC Far-East Ex-Japan Index and 40% 3-Month KLIBOR.

Effective from 30 April 2021, the MSCI AC Far-East Ex-Japan Index in the fund's benchmark was replaced with the S&P Pan Asia Ex-Japan, Australia, New Zealand & India LargeCap Index as the S&P regional index, which comprises a lower number of benchmark components as compared to the MSCI regional index, is more reflective of the portfolio composition and strategy of the fund in terms of the number of stocks which the fund generally holds.

Selected Performance Benchmark for PSTBLF

The benchmark of the fund is the following composite benchmark index comprising:

Percentage	Index
20%	Dow Jones Industrial Average
20%	STOXX Europe 50 Index
20%	Customised index by S&P Dow Jones Indices, LLC based on the top 30 constituents of the S&P BMI Asia Ex-Japan Index*
40%	3-Month KLIBOR

The component stocks of the customised index by S&P Dow Jones Indices, LLC based on the top 30 constituents of the S&P BMI Asia Ex-Japan Index comprise major stocks from key markets in Asia Ex-Japan region. The ratio stated in the composite benchmark index is representative of the fund's investments in global markets over the medium to long-term.

* As indices which focus on Asia Pacific markets have a relatively high index weight for Japanese and Australia stocks, an index which excludes the Japan and Australia markets is used as the fund's equity benchmark as it is more representative of the fund's investment strategy.

Prior to 30 April 2021, the fund's benchmark was a composite index of 20% Dow Jones Industrial Average, 20% STOXX Europe 50 Index, 20% customised index by MSCI based on the top 30 constituents of MSCI AC Far-East Ex-Japan Index and 40% 3-Month KLIBOR.

Effective from 30 April 2021, the customised index by MSCI based on the top 30 constituents of MSCI AC Far-East Ex-Japan Index in the fund's benchmark was replaced with the customised index by S&P Dow Jones Indices, LLC based on the top 30 constituents of the S&P BMI Asia Ex-Japan Index. The benchmark used for selected regional funds have been changed from the MSCI Far-East Ex-Japan Index to S&P Pan Asia Ex-Japan, Australia, New Zealand & India LargeCap Index. Consequently, the customised index for the fund is now based on the S&P index instead of the MSCI index.

INFORMATION ON THE FUNDS (CONT'D)

1.2 RISK FACTORS

General Risks

1. **Market risk:** Market risk refers to the possibility that an investment will lose value because of a general decline in financial markets, due to economic, political and/or other factors, which will result in a decline in the fund's NAV.
2. **Liquidity risk:** Liquidity risk refers to the ease of liquidating an asset depending on the asset's volume traded in the market. If the fund holds assets that are illiquid, or are difficult to dispose of, the value of the fund will be negatively affected when it has to sell such assets at unfavourable prices.
3. **Manager risk:** This risk refers to the day-to-day management of the fund by the fund manager which will impact the performance of the fund. For example, investment decisions undertaken by the fund manager pertaining to asset allocation and security selection which may not be in line with market movements, or non-conformance with regulations and internal policies and procedures, may adversely affect the performance of the fund.
4. **Loan financing risk:** This risk occurs when investors take a loan/financing to finance their investment. The inherent risk of investing with borrowed money includes investors being unable to service the loan repayments. In the event units are used as collateral, an investor may be required to top-up the investors' existing instalment if the prices of units fall below a certain level due to market conditions. Failing which, the units may be sold at a lower NAV per unit as compared to the NAV per unit at the point of purchase towards settling the loan.

The Manager does not encourage the practice of loan financing in the purchase of unit trust funds.

5. **Counterparty risk associated with OTC derivatives:** The use of OTC derivatives involve counterparty risk arising from counterparties' default or a decline in the counterparties' credit rating which may have adverse impact on the NAV of the fund. In such circumstances, efforts will be taken to liquidate the derivative position.

Specific Risks of the Funds

Equity, Mixed Asset and Balanced Funds

1. **Specific security risk:** Prices of a particular security may fluctuate in response to the circumstances affecting individual companies. As such, adverse price movements of a particular security invested by the fund may adversely affect the fund's NAV and unit price.
2. **Unlisted security risk:** This risk relates to investments in securities which are not listed on a securities exchange, such as stocks of unlisted companies. Investment in unlisted securities may subject the fund to liquidity risks upon the disposal of these securities which may impact the value of the fund.
3. **Interest rate risk:** Interest rate risk refers to the impact of interest rate changes on the valuation of bonds or other forms of securitised debt, money market instruments and deposits. When interest rates rise, prices of bonds or other forms of securitised debt generally decline and this may lower the market value of the fund's investment in bonds or other forms of securitised debt. The reverse applies when interest rates fall. The returns of the fund's investments in money market instruments and deposits move in tandem with interest rates. A decline in interest rates will lower the returns of the fund's investments in money market instruments and deposits. For example, when interest rates fall, deposit placements would be reinvested at lower interest rates and subsequently yield lower returns to the fund.
4. **Credit risk:** Credit risk relates to the creditworthiness of the issuer of the securities or money market instruments and deposits which is dependent on the issuer's ability to make timely payments of interest or principal. In the event that the issuer of a security or money market instruments and deposits defaults in the payment of interest and/or principal, the value of the fund may be adversely affected.

INFORMATION ON THE FUNDS (CONT'D)

5. **Currency risk:** If the fund invests in assets denominated in foreign currency, the fund may be exposed to currency fluctuation risks. If the currencies in which the investments are denominated depreciate against the local currency, the fund's NAV may be adversely affected and vice versa. To mitigate such risk, the fund may undertake hedging strategies. However, the fund would not benefit from any potential upside if currencies move in the opposite direction of the hedging strategy.
6. **Country risk:** Funds with foreign investments may be affected by changes in the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of the country in which the fund invests in. For example, the deteriorating economic condition or potential restrictive investment regulations imposed in such countries may adversely affect the value of the investments undertaken by the fund in those affected countries. This in turn may cause the NAV of the fund or prices of units to fall.

Regional/country funds which may invest a greater portion of their NAV in foreign markets and may be more affected by changes in the political and economic conditions of the region/country.
7. **Concentration risk:** Concentration risk arises when a fund's investments are concentrated in a limited number of stocks as in the case of PAPA40F. As such, adverse price movements of stocks invested by the fund may have a greater impact on the value of the fund compared to funds which invest in a larger portfolio of stocks. On the other hand, as PCASEF's investments are concentrated in China, this increases its exposure to market, political, legal, economic and social risks of that country. This may result in greater volatility of the fund's returns as compared to portfolios with broad-based regional or global investments.
8. **Industry/Sector risk:** Industry/sector risk arises when the fund is predominantly invested in specific industries or sectors. Due to the reduced degree of diversification by industries/sectors, the fund may be more vulnerable to factors associated with the particular industries/sectors it is invested in.
 - PFEPRF: Any material changes associated with the property investment and development sector and real estate investment trusts (REITs) may have an adverse impact on the NAV of the fund.
 - PFECTF: Any material changes associated with the consumer sector may have an adverse impact on the NAV of the fund.
 - PFETIF: Any material changes associated with the telecommunications and infrastructure sector may have an adverse impact on the NAV of the fund.
 - PINDGF, PRSEC, PSSF and PSTEF: Any material changes associated with the sectors that the funds invest in may have an adverse impact on the NAV of the funds.
 - PLTF: Any material changes associated with the consumer and technology sectors may have an adverse impact on the NAV of the fund.
 - PHGEF: Any material changes associated with the healthcare sector may have an adverse impact on the NAV of the fund.
9. **Risk associated with investments in warrants:** The market price of warrants held by the fund will depend on the current market price of the underlying security, the exercise price of the warrants and the time to expiration of the warrants. Such investments may experience time decay, and the erosion of value accelerates as the warrant approaches its expiry date. Any adverse movements in the market price of the warrants may impact the fund's NAV and unit price.
10. **Risk associated with investments in equity linked participation notes:** Equity linked participation notes are instruments designed to track designated securities. The movement of these notes are similar to the underlying shares listed in their respective markets. These notes are issued by international foreign broking houses for investment by investors who are not able to invest directly in the underlying foreign shares. These notes are purchased and sold by investors in a similar manner to the trading of shares. Investments in equity linked participation notes involve counterparty risk whereby the issuer of the notes may not be able to fulfill its obligation. It also presents market risk as these notes may not track the movement of their underlying shares closely.
11. **Emerging markets risk:** As emerging markets are still at a relatively early stage of development, investments into such markets (such as in the case of PVGEF) may be subject to risks such as political instability, regulatory or policy risks, weaker accounting regulation and legal enforcement, or domestic infrastructure problems, which could adversely affect the value of the fund.

Bond Funds

1. **Interest rate risk:** Interest rate risk refers to the impact of interest rate changes on the valuation of bonds or other forms of securitised debt. When interest rates rise, prices of bonds or other forms of securitised debt generally decline and this may lower the market value of the fund's investment in bonds or other forms of securitised debt. The reverse applies when interest rates fall.
2. **Credit risk:** Credit risk relates to the creditworthiness of the issuer of the securities or money market instruments and deposits which is dependent on the issuer's ability to make timely payments of interest or principal. In the event that the issuer of a security or money market instruments and deposits defaults in the payment of interest and/or principal, the value of the fund may be adversely affected.

Money Market Fund

1. **Interest rate risk:** Interest rate risk refers to the impact of interest rate changes on the valuation of bonds or other forms of securitised debt, money market instruments and deposits. When interest rates rise, prices of bonds or other forms of securitised debt generally decline and this may lower the market value of the fund's investment in bonds or other forms of securitised debt. The reverse applies when interest rates fall. The returns of the fund's investments in money market instruments and deposits move in tandem with interest rates. A decline in interest rates will lower the returns of the fund's investments in money market instruments and deposits. For example, when interest rates fall, deposit placements would be reinvested at lower interest rates and subsequently yield lower returns to the fund.
2. **Credit risk:** Credit risk relates to the creditworthiness of the issuer of the securities or money market instruments and deposits which is dependent on the issuer's ability to make timely payments of interest or principal. In the event that the issuer of a security or money market instruments and deposits defaults in the payment of interest and/or principal, the value of the fund may be adversely affected.

Risk Management Strategies

Equity, Mixed Asset and Balanced Funds

Asset allocation, liquidity management and diversification strategies employed are central to the efforts to manage the risks posed to the fund.

To mitigate risks arising from significant volatilities in times of adverse market movements, foreign currency exposure and foreign interest rate movements, the fund may employ hedging strategies utilising derivatives such as futures contracts, foreign exchange forward contracts and options.

Investments in warrants will be assessed on ongoing basis as it can potentially increase the volatility of the fund's returns.

To manage credit risk, credit analysis is conducted and credit ratings of financial institutions are monitored on an ongoing basis. The fund will focus on securities issued by companies with sound financial position whereby gearing ratio and interest cover ratio are within acceptable levels of the industry in which the issuer company operates.

Bond Funds

The risk management process focuses on managing the impact of changes in the interest rate trend and credit risk profile of the issuer of bonds or other forms of securitised debt.

This Master Prospectus is issued to replace and/or supersede the Master Prospectus 1 of Public Series of Funds dated 30 April 2019, 1st Supplemental Prospectus of Master Prospectus 1 of Public Series of Funds dated 22 January 2020, 2nd Supplemental Prospectus of Master Prospectus 1 of Public Series of Funds dated 16 December 2021, Prospectus of Public Vietnam-Global Equity Fund dated 2 October 2019, Prospectus of Public Japan Global Equity Fund dated 3 December 2019, Prospectus of Public Healthcare-Global Equity Fund dated 20 October 2020, Prospectus of Public Asia Pacific Focus Fund dated 30 November 2021 and Prospectus of Public Asia Pacific Alpha-40 Fund dated 10 December 2021.

INFORMATION ON THE FUNDS (CONT'D)

The fund manager will adopt various investment strategies which include portfolio diversification and varying the asset allocation between the long-tenured and short-tenured bonds or other forms of securitised debt and money market instruments to adjust the risk and return characteristics of the fund. To manage credit risk, credit analysis is conducted and credit rating of financial institutions or bonds or other forms of securitised debt issuers is monitored on an ongoing basis. The fund will focus on securities issued by companies with sound financial position whereby gearing ratio and interest cover ratio are within acceptable levels of the industry in which the issuer company operates.

To mitigate risks arising from foreign currency exposure and foreign interest rate movements, the fund may employ hedging strategies utilising derivatives such as futures contracts, foreign exchange forward contracts and options.

Money Market Fund

Essentially, the fund has been structured such that it is confined to instruments of short-tenure to maturity in order to minimise the impact of fluctuations in interest rates on the performance of the fund. Money market instruments invested by the fund are issued by licensed financial institutions with investment grade rating. In the event that the credit rating of the financial institution is downgraded, the fund will take measures to reduce its exposure to the said institution accordingly. The credit risks assumed are limited to the extent that any bonds or other forms of securitised debt invested in must have a minimum credit rating of BBB for long-tenured securities and P1 for short-tenured securities, at the point of purchase. In the event that the credit rating of a particular debt issue is downgraded below the stipulated minimum investment grade, the Manager will take the necessary steps to divest the asset at risk. However, in order to protect the best interest of the fund, the Manager has the discretion to take into consideration all relevant factors that affect the fair value of the investment via an internal credit assessment process before deciding on the manner and time frame of the liquidation.

Liquidity Risk Management

Prudent liquidity management such as cash flow and redemption monitoring (for example, single customer exposure, risk appetite limit on redemption rate* and liquidity stress test) is in place to ensure that the funds maintain reasonable levels of liquidity to meet any redemption request.

Under exceptional circumstances where the market value or fair value of a material portion of the funds' assets cannot be determined (which include but not limited to the closure of a securities exchange or trading restrictions on a securities exchange and an emergency or other state of affairs whereby there is no price discovery which impact a material portion of the fund's NAV), as the last recourse, the Manager may consult trustee to suspend dealing in units. This measure is taken when there is good and sufficient reason to do so, considering the interest of unitholders.

If suspension of redemption is imposed, unitholders of the fund would be unable to redeem the units they had invested in the fund temporarily. The unitholders will have to remain invested in the fund, as well as continue to be subjected to the risks inherent to the fund during the suspension period. Regulatory authorities and unitholders will be informed in the event a redemption suspension period is imposed and that the suspension will cease as soon as practicable and in any event, within 21 days (or any other period as may be determined by the SC) of the commencement of suspension. The period of suspension may be extended only if it is in the best interest of the unitholders and will be reviewed on a weekly basis by the fund's trustee.

** Risk appetite limit on redemption rate is a risk indicator to monitor the average redemption rate against the internal risk threshold/limit set.*

The above limits and restrictions shall be complied with at all times based on the most up-to-date value of the respective funds, and the value of their investments and instruments.

Any breach as a result of any –

- appreciation or depreciation in value of the fund's investments;
- redemption of units or payment made out of the fund;
- change in capital of a corporation in which the fund has invested in; or
- downgrade in or cessation of a credit rating,

must be rectified as soon as practicable within three months from the date of the breach unless otherwise specified in the SC Guidelines. The three-month period may be extended if it is in the best interest of unitholders and trustee's consent is obtained. Such extension must be subject to at least a monthly review by the trustee.

Such limits and restrictions, however, do not apply to securities that are issued or guaranteed by the Malaysian Government or Bank Negara Malaysia.

Note: The investment restrictions and limits of the funds may be subject to changes as may be determined by the SC from time to time, the effective date of which shall be determined by the Manager.

INFORMATION ON THE FUNDS (CONT'D)

1.5 VALUATION OF PERMITTED INVESTMENTS

The permitted investments of the funds are fairly valued based on the following valuation methods:

Listed shares or securities equivalent to shares – valuation is based on the official closing price or last known transacted price on the Eligible Market on which the investment is quoted. If the price is not representative or not available to the market, the securities will be valued at fair value, as determined with due care and in good faith by the Manager, based on the methods or bases approved by the trustee after appropriate technical consultation.

Unlisted shares – fair valuations which are based on methods that are acceptable to the Manager and approved by the trustee.

Listed and unlisted bonds or other forms of securitised debt (including commercial papers) – for listed bonds or other forms of securitised debt, valuation is based on the official closing price or last known transacted price on the Eligible Market on which the investment is quoted.

In the case of unlisted bonds or other forms of securitised debt (including commercial papers) denominated in RM, valuations are carried out on a daily basis using fair value prices quoted by a Bond Pricing Agency (BPA) registered with the SC. Other foreign unlisted bonds or other forms of securitised debt are valued daily based on fair value by reference to the average indicative yield quoted by independent and reputable institutions.

If the valuations are not representative or not available to the market, the bonds or other forms of securitised debt will be valued at fair value, as determined with due care and in good faith by the Manager, based on the methods or bases approved by the trustee after appropriate technical consultation.

Money market instruments (excluding unrestricted investment accounts) – money market instruments which include negotiable instrument of deposits are valued at market yields based on the remaining days to maturity.

Unrestricted investment accounts and deposits with financial institutions – the value of such investments shall be determined on a daily basis by reference to their principal value and the accrued interest thereon for the relevant period.

Units or shares in other collective investment schemes – for unlisted collective investment schemes, valuation is based on last published repurchase price. For listed collective investment schemes, valuation is based on market price of the respective exchanges. If no market price is available or valuation based on market price does not represent the fair value of investments, the shares will be valued at fair value, as determined with due care and in good faith by the Manager, based on the methods or bases approved by the trustee after appropriate technical consultation.

Foreign exchange forward contracts – all foreign exchange forward contracts are marked-to-market daily and valued at fair value using forward rate of the remaining tenure to maturity.

Futures contracts – all futures contracts are marked-to-market at the end of each trading day. Any gains or losses are immediately reflected upon marking to market.

Suspended securities – will be valued at their suspended price unless there is conclusive evidence to indicate that the value of such stocks have gone below the suspended price, whereupon their value will be ascertained in a manner as agreed upon by the Manager and trustee.

All foreign securities and assets are converted into RM based on the bid exchange rate quoted by Refinitiv (formerly known as Thomson Reuters)/Bloomberg at United Kingdom time 4:00 p.m. the same day.

1.6 CROSS TRADE POLICY

Cross trade transactions between funds managed by Public Mutual as part of the portfolio rebalancing process, may be undertaken if such transactions are deemed to be in the best interest of the funds and are transacted through a dealer or a financial institution on an arm's length and fair value basis.

3 TRANSACTION INFORMATION

3.1 DETERMINATION OF PRICES

Valuation Point

Valuation of funds with no foreign investments is conducted on each Business Day at the close of Bursa Securities.

For funds with foreign investments, valuation is conducted after the close of business of Bursa Securities for the relevant day. As certain foreign markets in which the funds may invest in have yet to close due to the different time zones of these countries, the valuation point may be extended to 5:00 p.m. (or any other such time as may be permitted by the relevant authorities from time to time) on the following day in which the Manager is open for business. As such, the daily prices of the funds will not be published on the next Business Day but instead will be published the next following Business Day (i.e. the prices will be 2 days old).

NAV per Unit

The NAV per unit is obtained by dividing the NAV of the fund by the number of units in issue.

Illustration:

Total NAV (RM) 352,625,000	÷	UIC (units) 1,410,500,000	=	NAV per unit (RM) 0.25000000
--------------------------------------	---	-------------------------------------	---	--

NAV per Unit for PMMF

The NAV per unit of a class is obtained by dividing the NAV of the class by the number of units in issue for that class.

Multiclass Ratio (MCR)

MCR is the apportionment of the NAV of each class over the fund's NAV based on the size of each class. The MCR is calculated by dividing the NAV of the respective classes by the NAV of the fund before income and expenses for the day. The apportionment is expressed as a ratio and calculated as a percentage.

Illustration:

	Fund	Class A	Class B
NAV of the fund before income and expenses	47,600,000.00	15,000,000.00	32,600,000.00

TRANSACTION INFORMATION (CONT'D)

	Fund	Class A	Class B
Creation of units for the day		125,000.00	125,000.00
NAV of the fund before creation for the day	47,619,484.67	15,006,139.61	32,613,345.06
Value of creation for the day	250,100.00	125,050.00	125,050.00
Closing NAV of the fund	47,869,584.67	15,131,189.61	32,738,395.06
Units in circulation (after creation of units for the day)		15,125,000.00	32,725,000.00
NAV per unit		RM1.0004	RM1.0004

The illustration above is generally to explain the calculation of the NAV per unit for each class. The NAV per unit for each class may differ subject to factors, which may include but not limited to fees, expenses, taxes or distribution specifically attributable to that class.

Notes:

(1) MCR computation

	Class A	Class B
NAV of the Class	15,000,000.00	32,600,000.00
NAV of the fund before income and expenses for the day	47,600,000.00	47,600,000.00
	= 31.51%	= 68.49%

(2) Apportionment based on MCR is as follows:

	RM	Class A	Class B
Income	30,000	MCR x Income = Income for Class A = 31.51% x RM30,000 = RM9,453	MCR x Income = Income for Class B = 68.49% x RM30,000 = RM20,547
Expenses	10,000	MCR x Expenses = Expenses For Class A = 31.51% x RM10,000 = RM3,151	MCR x Expenses = Expenses For Class B = 68.49% x RM10,000 = RM6,849

Single Pricing

Purchase and redemption of units are quoted and transacted at a single price, i.e. at the NAV per unit of the fund(s)/class(es). Sales charge and redemption charge (if any) are computed and charged separately, and are not incorporated in the quoted prices of the funds/classes.

Forward Pricing

Both the purchase and redemption transactions are traded at prices *next determined*. A request issued by you to purchase or redeem units of the fund will be carried out at a price as at the *next valuation point after the application is received and accepted by the Manager*.

This is a replacement Master Prospectus. Payment received before or at 4:00 p.m.

Processed based on the price determined for the same Business Day.

Payment received after 4:00 p.m.

Processed based on the price determined for the next Business Day.

Any investment and transaction requests made on a non-Business Day will be treated as investments or transaction requests made on the following Business Day.

Incorrect Pricing

In the event of any incorrect pricing of units of the funds/classes, the Manager shall take immediate remedial action where that incorrect pricing –

- (i) is equal or more than 0.5% of the NAV per unit; and
- (ii) results in a sum total of RM10.00 or more to be reimbursed to the affected unitholder for each purchase or redemption transaction.

Subject to any regulatory requirements, the Manager shall have the right to amend, vary or revise the abovesaid limits or threshold from time to time.

TRANSACTION INFORMATION (CONT'D)

3.10 DISTRIBUTION

Declaration

- Distribution, if any, is declared at the end of each financial year, or for any other specified period.
- Distribution(s) may be declared out of the funds' net realised capital gains and net realised investment income in the current financial year, and/or out of capital (derived from net realised capital gains and net realised investment income brought forward) if the funds do not have sufficient net realised capital gains or net realised investment income from the current financial year.
- Should the funds distribute out of capital, the capital of the funds may be eroded and the value of future returns may be diminished.
- Funds with regular distribution policy (e.g. annual) may distribute out of capital to ensure that the funds meet their investment objectives of providing regular income to their unitholders.
- Funds with incidental distribution policy may distribute out of capital to return a portion of the capital growth to unitholders when the funds have sufficient realised gains and realised investment income.

Reinvestment

- Distribution (if any) will be reinvested unless you opt for distribution to be paid out to you by indicating in the investment application form or PMO.
- Distribution will be reinvested at NAV per unit, computed at the close of the first Business Day following the distribution declaration date.
- No sales charge will be imposed on distribution reinvestments.
- Distribution less than RM100 per account will automatically be reinvested at NAV per unit.

Pay Out Option

- Please provide your bank account details by completing the Bank Account Registration Form or via PMO for distribution to be credited into your bank account.
- In the absence of a registered bank account, the distribution (if any) will be reinvested.
- Distribution payment that cannot be credited into the registered bank account will be reinvested following the unsuccessful crediting of the distribution payment.

Notify the Manager of any changes to your distribution instructions within 14 Business Days prior to each date fixed for the distribution.

Unit prices and distributions payable, if any, may go down as well as up.

Where unit splits or distribution is declared, following the issue of unit splits and/or distribution, the NAV per unit will be reduced accordingly to reflect/account for the unit splits and/or distribution.

Where unit splits is declared, the value of investment in RM terms will remain unchanged after the distribution of additional units.

Delegation of Custodian Function

MTB has appointed Malayan Banking Berhad, as the custodian of the local assets of the funds. The custodian function is run under Maybank Securities Services ("MSS"), a unit within Malayan Banking Berhad. MSS commenced operations in 1983 and has been appointed as custodian of unit trust funds since 1989. MSS provides clearing and custody services for Malaysian equity and fixed income securities to domestic and foreign institutional clients. In addition, MSS offers global custody services to domestic institutions/clients who have foreign investments.

The roles and duties of the trustee's delegate, MSS, are as follows:

- Safekeep, reconcile and maintain assets holdings records of funds against trustee's instructions;
- Act as settlement agent for shares and monies to counterparties against trustee's instructions;
- Act as agents for money market placement where applicable against trustee's instructions;
- Disseminate listed companies' announcements to and follow through for corporate actions instructions from trustee;
- Compile, prepare and submit holdings report to trustee and beneficial owners where relevant; and
- Other ad-hoc payments for work done for the funds against trustee's instructions, etc.

MTB has delegated its custodian function for the foreign investments of the funds to Citibank N.A., Singapore branch. Citibank N.A. Singapore Branch was registered in Singapore by the Accounting and Corporate Regulatory Authority of Singapore on 6 January 1927. Citibank N.A. in Singapore began providing securities service in the mid-1970's and a fully operational global custody product was launched in the early 1990's. To date the securities services business service a diverse range of clients such as banks, fund managers, broker dealers and insurance companies.

The roles and duties of the trustee's delegate, Citibank N.A., Singapore, are as follows:

- To act as sub-custodian for the selected cross-border investment of the funds including the opening of cash and custody accounts and to hold in safe keeping the assets of the funds such as equities, bond and other assets.
- To act as paying agent for the selected cross-border investment which include trade settlement and fund transfer services.
- To provide corporate action information or entitlements arising from the above underlying assets and to provide regular reporting on the activities of the invested portfolios.

Both custodians act only in accordance with instructions from the trustee.

Material Litigation and Arbitration

As at 29 March 2023, MTB is not engaged in any material litigation and arbitration, either as plaintiff or defendant, and the trustee is not aware of any proceedings, pending or threatened or of any facts likely to give rise to any proceedings which might materially and adversely affect its financial position or business.

6.3 PERMITTED EXPENSES PAYABLE OUT OF THE FUNDS

Only expenses directly related and necessary in operating and administering a fund may be paid out of the fund. The major expenses that are recoverable directly from the funds include:

- (i) commission or fees paid to brokers in effecting dealings in the investments of the funds, shown on the contract notes or confirmation notes or difference accounts;
- (ii) (where the foreign custodial function is delegated to sub-custodians), the remuneration paid to the sub-custodian;
- (iii) tax and other duties charged on the funds by the government and other authorities;
- (iv) the fee and other expenses properly incurred by the auditor and all professional and accounting fees and disbursements approved by the relevant trustee;
- (v) fees for the valuation of any investment of the funds;
- (vi) costs incurred for the modification of the Deed other than those for the benefit of the Manager or the trustee;
- (vii) costs incurred for any meeting of unitholders other than those convened by the Manager or trustee for its own benefit;
- (viii) the costs of printing and dispatching to unitholders the accounts of the funds, tax certificates, distribution warrants, notices of meeting of unitholders, newspaper advertisement and such other similar costs as may be approved by the relevant trustee; and
- (ix) any other expenses properly incurred by the relevant trustee in the performance of its duties and responsibilities.

6.4 RETIREMENT, REMOVAL AND REPLACEMENT OF THE MANAGER

The Manager may retire upon giving 12 months notice to the trustee of its desire to do so, or such shorter period as the Manager and the trustee shall agree upon, in favour of some other corporation.

The Manager may be removed and another corporation appointed as manager by Special Resolution of the unitholders at a unitholders' meeting convened in accordance with the Deed either by the trustee or the unitholders.

The trustee shall take reasonable steps to remove and replace the Manager as soon as practicable after becoming aware of any such circumstances:

- (a) A Special Resolution to that effect has been duly passed by the unitholders at a meeting called for that purpose;
- (b) The Manager is in breach of its obligations under the Deed;
- (c) The Manager has failed or neglected to carry out its duties to the satisfaction of the trustee and the trustee considers that it would be in the interests of unitholders for it to do so, after the trustee has given notice and reasons and has considered any representations made by the Manager in respect of that opinion, and after consultation with the relevant authorities and with the approval of the unitholders; or
- (d) The Manager has gone into liquidation (except a voluntary liquidation for the purpose of amalgamation or reconstruction or some similar purpose) or has had a receiver appointed or has ceased to carry on business,

and the Manager shall not accept any extra payment or benefit in relation to such removal or replacement or retirement.

In any of the cases aforesaid the Manager for the time being shall upon receipt of such notice by the trustee cease to be the Manager and the trustee shall by writing under its seal appoint some other corporation to be the Manager of the fund subject to such corporation entering into a deed or deeds with the trustee and thereafter act as Manager during the remainder period of the fund.

SALIENT TERMS OF THE DEED (CONT'D)

6.5 RETIREMENT, REMOVAL AND REPLACEMENT OF THE TRUSTEE

The trustee may retire upon giving 12 months notice to the Manager of its desire to do so, or such shorter period as the Manager and the trustee shall agree upon, and may appoint a new trustee in his stead or as additional trustee.

The Manager shall take reasonable steps to remove and replace a trustee as soon as practicable after becoming aware of any such circumstances:

- (a) The trustee has ceased to exist;
- (b) The trustee has not been validly appointed;
- (c) The trustee is not eligible to be appointed or to act as trustee under section 290 of the CMSA 2007;
- (d) The trustee has failed or refused to act as trustee in accordance with the provisions or covenants of the Deed or the provision of the CMSA 2007;
- (e) A receiver is appointed over the whole or a substantial part of the assets or undertaking of the existing trustee and has not ceased to act under the appointment, or a petition is presented for the winding up of the existing trustee (other than for the purpose of and followed by a reconstruction, unless during or following such reconstruction the existing trustee becomes or is declared to be insolvent); or
- (f) The trustee is under investigation for conduct that contravenes Trust Companies Act 1949, the Trustee Act 1949, the Companies Act 2016 or any securities law.

In addition to the above, the trustee may be removed and another trustee appointed by Special Resolution of the unitholders at a unitholders' meeting convened in accordance with the Deed either by the Manager or the unitholders.

6.6 TERMINATION OF THE FUNDS

A fund and/or class may be terminated or wound-up upon the occurrence of any of the following events:-

- (a) the SC's approval is revoked under Section 256E of the CMSA 2007;
- (b) a Special Resolution is passed at a unitholders' meeting to terminate or wind-up that fund or the relevant class, following the occurrence of events stipulated under Section 301(1) of the CMSA 2007 and the court has confirmed the resolution, as required under Section 301(3) of the CMSA 2007;
- (c) a Special Resolution is passed at a unitholders' meeting to terminate or wind-up the fund or class; or
- (d) the effective date of an approved transfer scheme, as defined under the SC Guidelines, has resulted in the fund or class, which is the subject of the transfer scheme, being left with no asset/property.

A class of a fund may be terminated if a Special Resolution is passed at a meeting of unitholders of that class to terminate the class provided always that such termination does not materially prejudice the interests of unitholders of any other class of that fund.

Notwithstanding the above, the fund and/or any of the class may be terminated or wound-up, without the need to seek unitholders' prior approval, as proposed by the Manager with the consent of the trustee (which consent shall not be unreasonably withheld) upon the occurrence of any of the following events, by giving not less than three (3) months' notice in writing to the unitholders as hereinafter provided:

- (i) if any law shall be passed which renders it illegal or in the opinion of the Manager impracticable or inadvisable to continue the trust; or
- (ii) such circumstance of termination of the fund and/or the class is in the best interest of the unitholders; or
- (iii) if in the reasonable opinion of that Manager it is impracticable or inadvisable to continue the fund and/or the class.

SALIENT TERMS OF THE DEED (CONT'D)

6.7 UNITHOLDERS' MEETING

A unitholders' meeting may be called by the Manager, trustee and/or unitholders. Any such meeting must be convened in accordance with the Deed and/or the SC Guidelines.

Every question arising at any meeting shall be decided in the first instance by a show of hands unless a poll is demanded or if it be a question which under the Deed requires a Special Resolution, in which case a poll shall be taken. On a show of hands every unitholder who is present in person or by proxy shall have one vote.

The quorum for a meeting of unitholders of a fund or class, as the case may be, is 5 unitholders of that fund or class, as the case may be, whether present in person or by proxy, provided always that for a meeting which requires a Special Resolution the quorum for that meeting shall be 5 unitholders, whether present in person or by proxy, holding in aggregate at least 25% of the units in issue for that fund or class, as the case may be, at the time of the meeting. If the fund or class, as the case may be, has 5 or less unitholders, the quorum required shall be 2 unitholders, whether present in person or by proxy and if the meeting requires a Special Resolution the quorum for that meeting shall be 2 unitholders, whether present in person or by proxy, holding in aggregate at least 25% of the units in issue for that fund or class, as the case may be, at the time of the meeting. In the case of a fund or class, as the case may be, with 1 remaining unitholder, such unitholder, whether present in person or by proxy, at the meeting shall constitute a quorum.

6.8 CLASSES OF UNITS

The Manager shall have the sole and absolute right to issue and/or establish other, different or new classes of units of PMMF with different and/or similar features including but not limited to fees, charges, currency and/or distribution policy with that of the units without the need to seek unitholders' prior approval provided the issuance of other classes and the imposition of the terms shall not in the opinion of the Manager and trustee prejudice the rights of the unitholder of the current classes of units to PMMF. Where a new class is established or issued, units in any existing class and any other units may be re-designated so long as there is no prejudice to the existing unitholders of such class of units as a whole.

Taxation of the Funds

Income Tax

The Funds are unit trusts for Malaysian tax purposes. The taxation of the Funds is therefore governed principally by Sections 61 and 63B of the Income Tax Act, 1967 ("the Act").

Subject to certain exemptions, the income of the Funds in respect of investment income derived from or accruing in Malaysia are liable to income tax at the rate of 24% effective Year of Assessment ("YA") 2016.

The Funds may receive dividends, interest and other income from investments outside Malaysia. Income derived from sources outside Malaysia and received in Malaysia was previously exempt from Malaysian income tax. However, such income may be subject to tax in the country from which it is derived.

Based on the Finance Act 2021, income derived by a resident unit trust from foreign sources and received in Malaysia from 1 January 2022 onwards will be subject to Malaysian income tax. A transitional tax rate of 3% is accorded on the gross amount of the foreign income received in Malaysia from 1 January 2022 to 30 June 2022. From 1 July 2022, the prevailing tax rate of 24% will apply to the chargeable income computed in respect of the foreign source income remitted into Malaysia by the Funds.

Where the same foreign income has been taxed in both Malaysia and the foreign country, a tax credit in the form of bilateral relief under a Double Tax Agreement ("DTA") or unilateral relief under the domestic law (if there is no available DTA or a limited DTA which does not provide such relief) may be given in respect of such income, subject to conditions.

Gains from the realisation of investments by the Funds will not be subject to income tax in Malaysia. However, such gains may be subject to tax in the country from which it is derived.

This is a replacement Master Prospectus. This Master Prospectus is issued to replace and/or supersede the Master Prospectus 1 of Public Series of Funds dated 30 April 2019, 1st Supplemental Prospectus of Master Prospectus 1 of Public Series of Funds dated 22 January 2020, 2nd Supplemental Prospectus of Master Prospectus 1 of Public Series of Funds dated 16 December 2021, Prospectus of Public Vietnam-Global Equity Fund dated 2 October 2019, Prospectus of Public Japan Global Equity Fund dated 3 December 2019, Prospectus of Public Healthcare-Global Equity Fund dated 20 October 2020, Prospectus of Public Asia Pacific Focus Fund dated 30 November 2021 and Prospectus of Public Asia Pacific Alpha-40 Fund dated 10 December 2021.

TAXATION OF THE FUNDS AND UNITHOLDERS (CONT'D)

Interest income earned by the Funds from the following are exempt from tax:-

- any savings certificates issued by the Government; or
- securities or bonds issued or guaranteed by the Government; or
- debentures or sukuk, other than convertible loan stock, approved or authorized by, or lodged with, the Securities Commission; or
- Bon Simpanan Malaysia issued by the Central Bank of Malaysia; or
- a bank or financial institution licensed under the Financial Services Act 2013 or Islamic Financial Services Act 2013^{N1}; or
- any development financial institution regulated under the Development Financial Institutions Act 2002^{N1}; or
- sukuk originating from Malaysia, other than convertible loan stocks, issued in any currency other than Ringgit and approved or authorized by, or lodged with, the Securities Commission, or approved by the Labuan Financial Services Authority^{N2}.

Discounts earned by the Funds from the following are also exempt from tax:-

- securities or bonds issued or guaranteed by the Government; or
- debentures or sukuk, other than convertible loan stock, approved or authorized by, or lodged with, the Securities Commission; or
- Bon Simpanan Malaysia issued by the Central Bank of Malaysia.

Tax deductions in respect of the Funds' expenses such as manager's remuneration, expenses on maintenance of register of unit holders, share registration expenses, secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postage ("permitted expenses") are allowed based on a prescribed formula subject to a minimum of 10% and a maximum of 25% of the total permitted expenses.

Single tier Malaysian dividends received by the Funds are exempt from tax and expenses in relation to such dividend income are disregarded.

Real Property Gains Tax ("RPGT")

Gains on disposal of investments by the Funds will not be subject to income tax in Malaysia. However, such gains may be subject to RPGT in Malaysia, if the gains are derived from sale of Malaysian real properties and shares in Malaysian real property companies (as defined). Such gains would be subject to RPGT at the applicable rate depending on the holding period of the chargeable assets.

Sales Tax and Service Tax

The Goods and Services Tax ("GST") has been replaced by Sales Tax and Service Tax effective from 1 September 2018.

Under the Sales Tax Act 2018, Service Tax Act 2018 and subsidiary legislation, the sales tax rate for taxable goods is 5% or 10% while the service tax rate for taxable services is generally 6%. There are certain goods which are exempted from sales tax.

The issue, holding or redemption of any unit under a trust fund does not fall within the list of taxable services under the First Schedule of the Service Tax Regulations 2018 and hence, is not subject to service tax. The investment activities of the Funds such as buying and selling of securities and deposits in financial institutions are also not subject to service tax. As such, if the Funds are only deriving income from such activities, the Funds are not liable to be registered for service tax.

^{N1} Effective from 1 January 2019, the exemption shall not apply to the interest paid or credited to a unit trust that is a wholesale fund which is a money market fund.

^{N2} Effective from YA 2017, income tax exemption shall not apply to interest paid or credited to a company in the same group, licensed banks and prescribed development financial institutions. Based on the Finance Act 2021, income tax exemption shall also not apply to interest paid or credited by a special purpose vehicle to a company pursuant to the issuance of asset-backed securities lodged with the Securities Commission or approved by the Labuan Financial Services Authority from 1 January 2022 where the company and the person who established the special purpose vehicle solely for the issuance of the asset-backed securities are in the same group.

This is a replacement Master Prospectus. This Master Prospectus is issued to replace and/or supersede the Master Prospectus 1 of Public Series of Funds dated 30 April 2019, 1st Supplemental Prospectus of Master Prospectus 1 of Public Series of Funds dated 22 January 2020, 2nd Supplemental Prospectus of Master Prospectus 1 of Public Series of Funds dated 16 December 2021, Prospectus of Public Vietnam-Global Equity Fund dated 2 October 2019, Prospectus of Public Japan Global Equity Fund dated 3 December 2019, Prospectus of Public Healthcare-Global Equity Fund dated 20 October 2020, Prospectus of Public Asia Pacific Focus Fund dated 30 November 2021 and Prospectus of Public Asia Pacific Alpha-40 Fund dated 10 December 2021.

TAXATION OF THE FUNDS AND UNITHOLDERS (CONT'D)

However, certain expenses incurred by the Funds such as legal fees, consultancy fees and management fees may be subject to service tax at 6%. For management fees, this specifically excludes fees charged by any person who is licensed or registered with the Securities Commission for carrying out the regulated activity of fund management under the Capital Markets and Services Act 2007. The service tax incurred by the Funds is a cost to the Funds and is not recoverable, unlike the GST input tax which is claimable under the GST regime.

Based on the Finance Act 2018, the imposition and scope of service tax has been widened to include any imported taxable service. This is effective from 1 January 2019.

Taxation of Unit Holders

Income Tax

Unit holders are taxed on an amount equivalent to their share of the total taxable income of the Funds, to the extent that this is distributed to them. The income distribution from the Funds may carry with it applicable tax credits proportionate to each unit holder's share of the total taxable income in respect of the tax paid by the Funds. Unit holders will be entitled to utilise the tax credit as a set off against the tax payable by them. Any excess over their tax liability will be refunded to the unit holders.

Corporate unit holders, resident or non-resident in Malaysia, would be taxed at the corporate tax rate of 24% (effective from YA 2016), on distributions of income from the Funds to the extent of an amount equivalent to their share of the total taxable income of the Funds. Corporate unit holders in Malaysia with paid-up capital in the form of ordinary shares of RM2.5 million and below will be subject to a tax rate of 17% on chargeable income of up to RM600,000, effective from YA 2020. This concessional income tax rate is given only to corporate unit holders having gross business income for the relevant year of assessment of not more than RM50 million, in addition to the share capital requirement. For chargeable income in excess of RM600,000, the tax rate of 24% is still applicable.

However, the said tax rate of 17% on chargeable income of up to RM600,000 would not apply if more than 50% of the paid up capital in respect of ordinary shares of that corporate unit holder is directly or indirectly owned by a related company which has a paid up capital exceeding RM2.5 million in respect of ordinary shares, or vice versa, or more than 50% of the paid up capital in respect of ordinary shares of both companies are directly or indirectly owned by another company.

Based on the Finance Bill 2023, it is proposed that the tax rate of 17% will be reduced to 15% for the chargeable income of up to RM150,000, while the tax rate for the chargeable income from RM150,001 up to RM600,000 will remain unchanged at 17%. For chargeable income in excess of RM600,000, the tax rate of 24% will apply. The proposed changes will come into effect from YA 2023.

In addition to the current conditions as mentioned above, it is proposed that the new preferential tax rate would not apply if more than 20% of the paid-up capital in respect of ordinary shares of the company at the beginning of the basis period for a YA is directly or indirectly owned by a company or companies incorporated outside Malaysia or an individual or individuals who are not Malaysian citizens. The proposed condition is effective from YA 2024.

Based on the Finance Act 2021, a corporate tax rate of 33% ("Cukai Makmur") will be levied on corporate unit holders with chargeable income exceeding RM100 million. Corporate unit holders with chargeable income below RM100 million will still be taxed at tax rate of 24%. However, the chargeable income in respect of the income received in Malaysia from outside Malaysia from 1 July 2022 is exempted from the application of Cukai Makmur, computed based on a prescribed formula. This is effective for YA 2022 only.

The tax rate of 33% on chargeable income exceeding RM100 million would not apply to corporate unit holders in Malaysia that qualify for the preferential tax rate of 17% on chargeable income of up to RM600,000.

Individuals and other non-corporate unit holders who are resident in Malaysia will be subject to income tax at scale rates. The scale tax rates range from 0% to 30% with effect from YA 2020.

This is a replacement Master Prospectus. This Master Prospectus is issued to replace and/or supersede the Master Prospectus 1 of Public Series of Funds dated 30 April 2019, 1st Supplemental Prospectus of Master Prospectus 1 of Public Series of Funds dated 22 January 2020, 2nd Supplemental Prospectus of Master Prospectus 1 of Public Series of Funds dated 16 December 2021, Prospectus of Public Vietnam-Global Equity Fund dated 2 October 2019, Prospectus of Public Japan Global Equity Fund dated 3 December 2019, Prospectus of Public Healthcare-Global Equity Fund dated 20 October 2020, Prospectus of Public Asia Pacific Focus Fund dated 30 November 2021 and Prospectus of Public Asia Pacific Alpha-40 Fund dated 10 December 2021.

TAXATION OF THE FUNDS AND UNITHOLDERS (CONT'D)

Individuals and other non-corporate unit holders who are not resident in Malaysia, for tax purposes, are subject to Malaysian income tax at the rate of 30% with effect from YA 2020. Non-resident unit holders may also be subject to tax in their respective jurisdictions and depending on the provisions of the relevant tax legislation and any double tax treaties with Malaysia, the Malaysian tax suffered may be creditable in the foreign tax jurisdiction.

The distribution of single-tier Malaysian dividends and tax exempt income by the Funds will not be subject to tax in the hands of the unit holders in Malaysia. Units split by the Funds will also be exempt from tax in Malaysia in the hands of the unit holders.

However, based on the Finance Act 2021, the income distributed to a unit holder other than an individual, out of the interest income exempt from tax of a unit trust that is a retail money market fund which is paid or credited by a bank or financial institution licensed under the Financial Services Act 2013 or Islamic Financial Services Act 2013, or any development financial institution regulated under the Development Financial Institutions Act 2002 will be subjected to tax. This is effective from 1 January 2022.

Further, a new withholding tax mechanism is applicable on the above distribution. The income distributed to the unit holder other than an individual will be subject to withholding tax at the rate of 24% and the tax deducted can be utilised to set off against the tax payable by a tax resident unit holder. Withholding tax deducted on the income distributed to a non-individual unit holder who is not a tax resident in Malaysia will be regarded as a final tax. This is effective from 1 January 2022.

Any gains realised by the unit holders (other than financial institutions, insurance companies and those dealing in securities) from the transfer or redemption of the units are generally treated as capital gains which are not subject to income tax in Malaysia. However, certain unit holders may be subject to income tax in Malaysia on such gains, due to specific circumstances of the unit holders.

Service Tax

Only taxable services listed in the First Schedule of the Service Tax Regulations 2018 are subject to service tax, which exclude investment income or gains.

However, certain expenses such as legal fees, consultancy fees and management fees may be subject to service tax at 6%. For management fees, this specifically excludes fees charged by any person who is licensed or registered with the Securities Commission for carrying out the regulated activity of fund management under the Capital Markets and Services Act 2007.

Based on the Finance Act 2018, the imposition and scope of service tax has been widened to include any imported taxable service. This is effective from 1 January 2019.

The tax position is based on our understanding and interpretation of the Malaysian tax legislations and proposals as they stand at present. All prospective investors should not treat the contents of this letter as advice relating to taxation matters and are advised to consult their own professional advisers concerning their respective investments.

Yours faithfully

Ong Guan Heng
