North Asian Semiconductor Stocks Rallied in February 2026

- **What happened:** The S&P 500 Index eased in February 2026 amid tariff uncertainties following the U.S. Supreme Court's ruling that tariffs imposed under the International Emergency Economic Powers Act (IEEPA) were not legal. Meanwhile, the Ringgit-based returns on U.S. Dollar (US\$)-denominated investments were dampened by the greenback's continued weakness during the month.
- Regional equity markets traded mixed in February 2026, with the South Korea and Taiwan markets rising to new highs, driven by gains in selected semiconductor stocks amid robust demand for advanced memory chips. On the other hand, the Chinese markets declined on selected profit-taking activities following the release of data indicating China's softer-than-expected manufacturing activities for January 2026.
- The ASEAN equity markets generally rose for a fifth consecutive month, led by strength in the Thailand market following the appointment of a new Prime Minister and the Thai central bank's interest rate cut. On the local front, the FBM KLCI traded lower amid profit-taking activities in the financial, telecommunications and utilities sectors.
- **What's next:** Looking ahead, investors will closely monitor U.S. trade policies and the economic impact of geopolitical developments in the Middle East. Markets may experience volatility in the near term due to higher oil prices as a result of disruptions in the global oil supply chain.
- Several countries have the fiscal and/or monetary policy tools to support their domestic economies. These could be in the form of additional fiscal spending, liquidity injections and/or interest rate cuts.
- Equity investors should adopt a long-term perspective and practise Ringgit-unit cost averaging to potentially benefit from a rebound in the markets when the Middle East tensions subside.

Comparison of Stock Markets' Performances

Countries	Index	Index Level (in LC) As at 27 February 2026	Performance (in Ringgit terms, %)

Update on Equity Markets

Malaysia

FBM KLCI

Source: Bloomberg

- After rallying by 8.5% over the last two months, the FBM KLCI traded lower in February 2026 amid selected profit-taking activities.

Top sector movers in Malaysia (February 2026)

Source: Bloomberg

- The FBM KLCI's decline was led by the financial, telecommunications and utilities sectors.

Regional

S&P Pan Asia Ex-JP, AU, NZ, IN Index*

* S&P Pan Asia Ex-Japan, Australia, New Zealand and India
Source: S&P Dow Jones Indices, LLC

- The S&P Pan Asia Index rose to a new high in February 2026, led by gains in the South Korea and Taiwan equity markets.

Korea Composite Stock Price Index (KOSPI)

Source: Bloomberg

- South Korea's KOSPI rallied to a new record high, driven by gains in selected semiconductor stocks amid robust demand for advanced memory chips.

Update on Equity Markets

ASEAN

Source: Bloomberg

- The ASEAN equity markets, as proxied by the FTSE/ASEAN 40 Index, saw an uptrend amid foreign fund inflows and the strengthening of most ASEAN currencies against the US\$.

Source: Bloomberg

- Thailand's stock market rallied in February 2026 following the appointment of a new Prime Minister and the Thai central bank's interest rate cut.

United States (U.S.)

Source: Bloomberg

- The S&P 500 Index eased in February 2026 amid tariff uncertainties following the U.S. Supreme Court's ruling that tariffs imposed under the IEEPA were not legal.
- The Ringgit-based returns on US\$-denominated investments were dampened by the continued weakness of the US\$ during the month.

Source: Bloomberg

- The U.S. market was mainly weighed down by profit-taking activities in the information technology, communications and consumer discretionary sectors.
- On the other hand, the defensive consumer staples sector traded higher amid geopolitical uncertainties, while the energy sector posted gains in tandem with higher crude oil prices.

Update on Bond & Currency Markets

Bonds

Monthly Bond Yield Movement

Tenure	January 2026 (%)	February 2026 (%)	Change* (bps)
3-Year Bonds			
U.S. Treasury Bond	3.59	3.38	-21
MGS	3.00	3.03	+3
10-Year Bonds			
U.S. Treasury Bond	4.24	3.94	-30
MGS	3.50	3.48	-2

Note: As at 27 February 2026 * In basis points (bps)

Source: Bloomberg, Bank Negara Malaysia (BNM)

- The 3-year and 10-year U.S. Treasury (UST) yields ended the month lower by 21 and 30 basis points (bps) respectively on benign U.S. inflation, tariff uncertainties and safe-haven demand.

10-Year Malaysian Government Securities (MGS) Yield

Source: BNM

- The 10-year MGS yield eased by 2 bps to 3.48% in tandem with lower UST yields.

Currencies

Monthly MYR Movement vs Selected Currencies

	January 2026 % change#	February 2026 % change#	MYR per currency*
Pound Sterling	+0.5	+3.4	5.25
100 Japanese Yen	+1.2	+2.6	2.50
Euro	+1.3	+2.4	4.59
U.S. Dollar	+2.9	+1.3	3.89
Singapore Dollar	+1.4	+1.2	3.08
Chinese Yuan	+2.4	-0.01	0.57
Australian Dollar	-1.8	-0.2	2.77

Note: * Data as at 27 February 2026

Change indicates the Ringgit's movement vs foreign currencies

Source: Bloomberg

- The Ringgit appreciated against the US\$ in February 2026 on the back of foreign portfolio inflows and rising crude oil prices.
- The Ringgit also strengthened against most other currencies, with gains ranging between 1.2% and 3.4%.

Brent Crude Oil Price

Source: Bloomberg

- The price of Brent crude oil rose by 2.5% to US\$72.5 per barrel in February 2026 amid geopolitical tensions in the Middle East.

Outlook

Malaysia

YoY % Malaysia's Quarterly Real GDP Growth

Source: Department of Statistics Malaysia (DOSM)

- Malaysia's real gross domestic product (GDP) growth grew by 6.3% in 4Q 2025 due to growth in the services and manufacturing sectors, which gained pace to 6.3% and 6.1% respectively over the same period.
- For the full year of 2025, the Malaysian economy expanded by 5.2% compared to 5.1% in 2024.

YoY % Malaysia's Export Growth

Source: DOSM

- Malaysia's export growth rose to 19.6% in January 2026 amid an acceleration in electrical & electronics (E&E) exports.
- With expertise in back-end services, particularly outsourced semiconductor assembly and testing, Malaysia's E&E exports stand to benefit from strong demand for AI-related semiconductors.

- The Ministry of Finance forecasts Malaysia's real GDP to expand by between 4.0% and 4.5% in 2026, supported by resilient domestic consumption and continued investment spending.

Regional

YoY % Taiwan's Quarterly Real GDP Growth

Source: Bloomberg

- Taiwan's real GDP growth accelerated to 12.7% in 4Q 2025, due to a 38.8% surge in exports driven by sales of advanced semiconductors for AI applications. For 2025, the Taiwan economy expanded by 8.7%.
- Taiwan's economy is envisaged to grow by 4.6% in 2026, based on market estimates.

U.S. Tariff Rates Post-Supreme Court Ruling

Source: U.S. White House * Excluding the pre-2025 tariffs

- Following the U.S. Supreme Court's reversal of the tariffs imposed under the IEEPA, the Trump administration imposed a temporary 10% - 15% tariff under the U.S. Trade Act, with permanent tariffs to be imposed after completing the formal investigation process.

- China's economic momentum will depend on the effectiveness of government policies in revitalising domestic consumer demand and accelerating investments in emerging technologies.
- South Korea and Taiwan continue to be the primary beneficiaries of the global AI boom, driven by sustained demand for advanced semiconductor chips vital for AI and high-performance computing.

Outlook

ASEAN

Thailand's 1-day Repurchase Rate

Source: Bank of Thailand

Indonesia's Quarterly Real GDP Growth

Source: Bloomberg

- The Bank of Thailand reduced its policy rate by 25 bps to 1.00% at its monetary policy meeting on 25 February 2026 to support the domestic economic recovery and to alleviate household debt service costs.
- Thailand's economy is anticipated to grow by 1.8% in 2026 (2025: 3.1%), based on market estimates.

- Indonesia's real GDP growth rose to 5.4% in 4Q 2025 on higher investment spending. For the full year of 2025, Indonesia's economy grew by 5.1% (2024: 5.0%).
- Indonesia's economy may expand at a similar rate of around 5.1% in 2026, according to market estimates.

- Looking ahead, ASEAN's economic growth prospects are generally underpinned by resilient domestic demand, tourism activities, and inflows of foreign direct investment. Selected ASEAN nations also have the policy space to implement further stimulus measures to offset any potential softening in external demand.

United States

U.S.' Non-Farm Payrolls

Source: Bloomberg

U.S.' Quarterly Real GDP Growth

Source: Bloomberg

- The U.S.' non-farm payrolls rose by a higher-than-expected 130,000 jobs in January 2026 on the back of increased hiring in the education and healthcare sectors.
- However, jobs added in 2025 were revised downward to 181,000 from the previously estimated 584,000 jobs.
- The U.S.' unemployment rate improved to 4.3% in January 2026 from 4.4% in December 2025.

- The U.S.' real GDP growth eased to 2.2% in 4Q 2025 due to slower consumer spending and lower government expenditure. For the full year of 2025, the U.S.' economy grew by 2.2% (2024: 2.8%).
- The U.S. economy is projected to grow by 2.3% for the full year of 2026, based on the Fed's economic projections in December 2025.

- Investors will closely monitor U.S. trade policies and economic impact of geopolitical developments in the Middle East. Markets may experience volatility in the near term due to higher oil prices as a result of disruptions of the global oil supply chain.

Investors are advised to read and understand the contents of the Master Prospectus 1 of PB Series of Funds dated 28 August 2023, 1st Supplemental Prospectus of Master Prospectus 1 of PB Series of Funds dated 3 December 2025 and Prospectus of PB Sustainable Growth Fund dated 5 September 2023 and the relevant fund's Product Highlights Sheet (PHS) before investing.

Investors should understand the risks of the funds, as well as compare and consider the fees, charges and costs involved in investing in the funds.

A copy of the Prospectus, Supplemental Prospectus and PHS of PB Series of Funds can be viewed at our website www.publicmutual.com.my under FUNDS > Select Your Fund.

Investors should make their own assessment of the merits and risks of the investment. If in doubt, investors should seek for professional advice.

Past performance of the funds is not a reliable indicator of future performance.

A sales charge (if any) will be imposed on purchases of units of the funds and deducted upfront from the investment amount.

Please refer to www.publicmutual.com.my for our investment disclaimer.

Where a free copy of the Prospectus and Product Highlights Sheet can be obtained: Corporate representatives stationed at all branches of Public Bank or contact Public Mutual's Hotline: 03-2022 5000 for assistance.

Lipper Leaders:

Total Return

Lipper Ratings for Total Return reflect funds' historical total return performance relative to peers.

Consistent Return

Lipper Ratings for Consistent Return reflect funds' historical returns, adjusted for volatility, relative to peers.

Preservation

Lipper Ratings for Preservation reflect funds' historical loss avoidance relative to other funds within the same asset class. Scores for Preservation are computed from three broad asset classes — equity funds, mixed-equity funds, and fixed-income (bond) funds.

The Lipper Ratings are subject to change every month and are based on an equal-weighted average of percentile ranks for the Total Return, Consistent Return and Preservation metrics over three-, five-, and ten-year periods (if applicable). The highest 20% of funds in each peer group are named Lipper Leaders or a score of 5, the next 20% receive a score of 4, the middle 20% are scored 3, the next 20% are scored 2, and the lowest 20% are scored 1.

Lipper Leaders (Overall) - All Ratings as of 27 February 2026 - Ratings for Total Return reflect funds' historical total return performance relative to peers. Lipper Ratings for Consistent Return reflect funds' historical risk-adjusted returns relative to peers. Lipper Ratings for Preservation are relative, rather than absolute. Lipper Leader ratings DO NOT take into account the effects of sales charges. Ratings are based on an equal-weighted average of percentile ranks for each measure over overall period.

Lipper Ratings and Lipper Classifications do not constitute and are not intended to constitute investment advice or an offer to sell or the solicitation of an offer to buy any security of any entity in any jurisdiction. As a result, you should not make an investment decision on the basis of this information. Rather, you should use Lipper Ratings and Lipper Classifications for informational purposes only.

LIPPER  LIPPER LEADERS KEY HIGHEST      LOWEST

Lipper Fund Volatility

The Volatility Factor (VF) means there is a possibility for the fund in generating an upside return or downside return around this VF. The Volatility Class (VC) is assigned by Lipper based on quintile ranks of the VF for qualified funds. The VF is subject to monthly revisions and the VC is revised every six months or other intervals as advised by FIMM. The volatility banding for the "Very Low", "Low", "Moderate", "High" and "Very High" VCs as at 31 January 2026 are $0.000 \leq VF \leq 4.245$, $4.245 < VF \leq 7.795$, $7.795 < VF \leq 10.235$, $10.235 < VF \leq 13.595$ and VF more than 13.595 respectively. For this period to 30 June 2026, the VCs for the funds are based on the VFs of the respective funds as at 31 January 2026. The fund's portfolio may have changed since this date and there is no guarantee that the fund will continue to have the same VF or VC in the future. Presently, only funds launched in the market for at least 36 months will display the VF and its VC.

- Notes:**
- The total return is the overall return of the fund over the period.
 - The annualised return is the compounded annual rate of return of the fund over the specified period. The annualised returns for the Year-to-Date (YTD) period are not computed as they are deemed not meaningful.
 - There are fees and charges involved that may affect the returns over time.
 - The performances of funds are calculated net of all fees on an NAV-to-NAV basis and are sourced from Lipper.
 - Fund performance should be evaluated against the benchmark index which is reflective of the fund's asset allocation and investments over the medium to long term.
 - Commencement date is the last day of the initial offer period.
 - The distribution yields of funds are computed by dividing gross distribution for the financial year/period over the Ex-NAV per unit and it is not directly comparable with fixed deposit rate.
 - The asset allocation presented have been verified by the Trustees.
 - The stocks invested by the fund are classified according to various criteria which include the country classification assigned by international index providers and the company's main business interests in terms of geographical segmentation.
